Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 1 and 15 objected to because of the following informalities: the new limitation reads "when said tip cap is releasably received in said shaft of said tip cap." Examiner believes that the limitation should read "said tip cap is releasably received in said shaft of said tip cap," as otherwise it is unclear how the tip cap could be received within itself. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 2, 8, 9, 11, 12, 14, 15, 16, 22, 23, 24, 28, and 31-34 are rejected under 35 U.S.C. 102(b) as being anticipated by Adams (US 2,585,527).

Adams discloses in Figures 1, 2, and 8 a tip cap for a syringe (11) having a tip, the cap comprising a base (17), a body (13) having a textured top wall comprising a plurality of ribs (34) and an elliptical cross-section, and a shaft (12) having a helical thread shaped internally to match the syringe tip.

Response to Arguments

Applicant's arguments filed 10/25/2007 have been fully considered but they are not persuasive. Applicant argues that Adams does not disclose a tip cap for a syringe for a medicament which seals the medicament within the syringe. Examiner disagrees. Adams discloses that the device can be used as a

resilient closure for toothpaste in column 3 lines 20-26. Thus, Adams discloses a tip cap sealing a medicament within a syringe.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
